# Awakening Love and Wisdom

Led by internationally renowned spiritual teacher  
and author of the book  
"Boundless Love"

Within each human being lie reservoirs of limitless peace, profound connection to the whole of life and a love that can fill our heart. Yet commonly we busy ourselves in trying to control life to manifest our ego desires and keep away our fears.

This hides the simple fact that what we really want is so close at hand - happiness, peace and love is our true nature. This event is dedicated to awakening this inner knowing as a direct reality in your actual experience, so you can meet the challenges of our times from greater wisdom.

## Come and explore:

- **Practices to access inner peace and stillness**
- **Unwinding patterns of suffering**
- **Embracing what IS as the gateway to deeper reality**
- **How to be truly present**
- **Cultivating surrender, forgiveness, loving-kindness, trust**
- **Accessing deep inner guidance and wisdom**

Furthermore, Miranda will work experientially, inviting participants to share their deepest questions and concerns in a tangible atmosphere of unconditional love, so that together we gain deeper direct access to the grace that lies at the core of us all.
